WORK HISTORY

2020
Jan 2020 - Current
Senior Software Engineer
K-LAGAN
Today I work at K-Lagan as a senior software engineer working for a client applying my strong XP, TDD, and technical lead knowledge.

2019
Jun 2019 - Dec 2019
Software Craftsman
CODURANCE
I worked in codurance for 6 months, I grew my skills as Software Craftsman improving every day my XP, TDD and refactoring practices.

2019
Jan 2019 - Jun 2019
Training and Development Lead
NEORIS ARGENTINA
Responsible for the coordination, execution of training plans of the 5 offices that Neoris has in Argentina.

2017
Jan 2017 - Jan 2019
Technical Lead .NET
NEORIS ARGENTINA
I worked for NEORIS Argentina as the technical leader, Among my tasks was to create architecture components for the solution, responsible for the quality and technology used in the application we built.

2015
Jan 2015 - Jan 2017
Sr. Software Developer
NEORIS ARGENTINA
I have given training courses teaching and promoting best software development practices. I was very happy working there, but I need new challenges. I worked in several projects in NEORIS:
- YARD:
 - FrontEnd: Angular 5 with typescript
 - BackEnd: WebApi 2 with .NET FWK 4.7 and MS-SQLServer
- FyO Granos:
 - FrontEnd: Desktop application C#, XAML(WPF)
 - BackEnd: WCF, MS-SQLServer, .NET FWK 4.5.1
- Bolsa de Comercio:
 - FrontEnd: Desktop application C#, XAML(WPF)
 - BackEnd: WCF, MS-SQLServer, .NET FWK 4.5.1

2014
Jan 2014 - Current
Founder
FULLCODERS
I work as Freelance Developer with technologies Desktop, Web and Mobile.

2014
Jul 2014 - Dec 2014
Developer .NET
GRUPO OLEUM S.R.L
I worked at Grupo Oleum S.R.L for only 6 months, where I have stood out because of my predisposition, responsibility and willingness to face new challenges. In Grupo Oleum S.R.L I worked maintaining software used in service stations throughout Argentina.

2011
May 2011 - Jun 2014
Owner
DPTECHNIK
Sales and Repair computers.

TESTIMONIALS

Matias Emanuel Toro - SENIOR CONSULTANT AT ALTRAN
On that occasion I want to provide that whoever necessary should be received my personal and special recommendation for Damián, who in the last year has been working with me as technical leader. I came to the Neoris in the beginning of 2017; and, immediately we created a team synergy. Damián took on the role of senior developer (TD) with success. He has proven himself to be a lifelong learner, with a willingness to embrace change and do every part of his job with the highest quality standards. He handled all our software corporate needs - from recruiting (technical interviewing) to organize a work team aligned, estimations and direct customer communication. Damián's efforts and innovation also readied us for launching a highly successful project to Dreyfus Company. He was responsible of that successful team. This, I believe, is one of his greatest accomplishments. I am appreciative for the opportunity to have had Damián as a workmate, I recommend him for any position or career he chooses. Sincerely

Gabriele Lippi - FRONTEND ENGINEER AT LIFULL CONNECT
Working with Damián I could see both his great technical skills, especially in the backend and C# world, and most importantly his empathy and ability to work with the team. He is smart and always kind with his teammates. Together we delivered the prototype of the app in time and we did it without falling down the pressure of the deadline.

Alejandro Dreyer - SR. DEVELOPER AT SAN CRISTOBAL SEGUROS
He is an excellent Developer and a perfectionist. He develops easily in the team of work and he is always ready to help.

Guido Quadrini - CONSULTING, TEACHING AND PROJECT MANAGEMENT
I had the pleasure of working with Damián at Grupo Oleum. Damián is a very proactive, responsible and common-sense person. He can tackle jobs under pressure without problems. His help in the team brings human and professional value of great quality.

Santiago Garabaya - SOFTWARE DEVELOPER AT NEORIS
Damián is very focused on his work, responsible and always willing to help a teammate who needs it. He has a lot of technical and theoretical knowledge, and he is always willing to acquire more.

Damián Leguina - DEVELOPER AT ENDAVA
Person focused on work and learning, he uses his extensive knowledge to find the optimal solution of problems that arise with the tools at his disposal. With a very remarkable capacity for teamwork, you can trust that you will contribute to the group by generating fluency to everyone's complementary skills.
